ABSTRACT

In this sample-structured document, neither the cross-linking of float elements and bibliography nor metadata/copyright information is available. Most importantly, this template provides the layout and text styles required for OzCHI'19 Proceedings.

The full CCS classification tree is freely available for educational and research purposes in HTML format. In the ACM Digital Library, the CCS is presented in a visual display format that facilitates navigation and feedback. The full CCS classification tree is also viewable as a flat file in the Digital Library.

ACM Reference format: (LEAVE THIS TEXT AS IS FOR NOW, ACM PROVIDES THE FINAL TEXT)

1 Insert Heading Level 1

The updated template, user manuals, samples, and required fonts, all are available at the URL https://www.acm.org/publications/proceedings-template. It contains said information for all three versions of MS Word (Windows and 2 versions of Mac). There are also separate links to the user guide, which can be referred to by the user. This URL also contains some useful video links, which describe how to add the template, structure the paper, and generate the layout, in different clips.

Display Formula with Number

\[
\sqrt{b^2 - 4ac} \pm \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}
\]

Continuation part of Paragraph Text The user must style this paragraph in ParaContinue style, which follows immediately after the DisplayFormula (numbered equation). The DisplayFormula style is applied only in case of a numbered equation. A numbered equation always has a number to its right. Insert paragraph text here. DisplayFormula without Number

\[
\sqrt{b^2 - 4ac} \pm \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}
\]

The DisplayFormulaUnnum style is applied only in case of an unnumbered equation. An unnumbered display equation never contains an equation number to its right, and this unique property distinguishes it from a numbered equation.

1.1 Heading Level 2

In the below paragraph, it is explained how alt-txt value is placed in MS Word 2010. To add alternative text to a picture in Word 2010, follow these steps:

1. In a Word 2010 document, insert a picture.
2. Right click on the inserted picture and select the **Format Picture** option.
3. Select the **Alt Txt** option from the left-side panel options.
4. In the "Title:" and "Description:" text boxes, type the text you want to represent the picture, and then click "Close".

Below are steps to place alt-txt value in MS Word 2013/2016. To add alternative text to a picture in Word 2013/2016, follow these steps:

1. In a Word 2013/2016 document, insert a picture.
2. Right click on the inserted picture and select the **Format Picture** option.
3. In the settings at the right side of the window, click on the "Layout & Properties" icon (3rd option).
4. Expand **Alt Txt** option.
5. In the "Title:" and "Description:" text boxes, type the text you want to represent the picture, and then click "Close".
